

Direct QSL Traffic Year 2006 - in Red Qsls I did not got an answer							
DX Station	Band Wkd	Date QSO (last)	Mode	Manager	Sase	QSL Sent	QSL Received
9M2AX	17/30/80	01Jan2006	SSB-CW	Direct	IRC-envelope	08Feb2008	NO
STORM	15/17/20/30/40/80	01Jan/2006	SSB-CW	T93Y	1\$-IRC	10Feb2006	NO
STORM note via T93Y							
	T93Y sent me back QSLs refusing to confirm them, sending me back money and Qsl, Hi saying that i tried to keep him as a fool because there was two RTTY qso in my list, when STORM at the date of that QSOs was not able to operate in RTTY yet, i explained him that I'm working on line with my Log program jumping here and there following DX and i did not realized that my Log program was set up on RTTY mode, so I enterd that QSOs as RTTY instead of CW, this the only reason i found myself, away from me the idea to take him as fool, however I thing hi has a duty to confirm the right QSOs , What do you think about T93Y's behaviour ?
